**WRITING**

Hello. I am writing to you on behalf of Surgut's School №12 committee. In this letter, I would like to report the situation regarding ways of young people spending their free time.

In the last 20 years, Russia has changed drastically. Most people went from owning solely a CRT TV set and a stationary phone to brand new smartphones and powerful PCs. Thus, almost all teenagers prefer to surf the web or scroll through the posts rather than do something useful. Though, it is worth mentioning that our town has workout spaces and many walking paths – everything to sustain health.

Nowadays, as most teens can not take their off screens, deteriorating eyesight, bad eating habits and crooked spine become real problems that need to be dealt with. However, there are many positive factors, too! For example, the web opens many opportunities for part-time jobs and may provide valuable knowledge. More and more youngsters go outside to do sports as well.

Considering how rapidly the IT sector is growing, the youth would probably want to become data & specialists, front and back-end developers etc. Also people will probably be more invested in sports

in several years.

These were my thoughts on the topic of youth spending their spare time. Good luck on conducting the research!
